LET'S MAKE THINGS BETTER TOGETHER FOOD HACK 15-17TH OF MARCH 2019 - A HEALTHIER PLANET

Does innovation, sustainability and food make your heart leap? Are you passionate about the more sustainable future of food? Then join us!

The Food Hack is a 48 hour long innovation competition and food conference for the global food community initiated by Krinova & the research council for sustainable development-Formas. This year's theme is "A Healthier Planet" we set out to tackle challenges related to the sustainable development goals defined by the United Nations in the 2030 Agenda. Food and the food system design including production, distribution and consumption play a vital role in fulfilling these goals and thereby reach social, economic and environmental sustainability. Hackers will work in teams to set up projects boosted by the latest research and experienced mentors. All in the spirit of challenge driven open innovation!
